special types of wind turbines

information pages and images

performance discussions

innovative approaches

Suggestions for obtaining further performance increments with using prototypes of **GMWT** = "self directioning - augmented diffusers (AADV)" combined with -famous- Darrieus blades.

Result: DARRIEUS blades become having self-starting feature.. then have obtained power increase up to five-fold.. **SO..**

..let the wind revolution embrace you!

or..

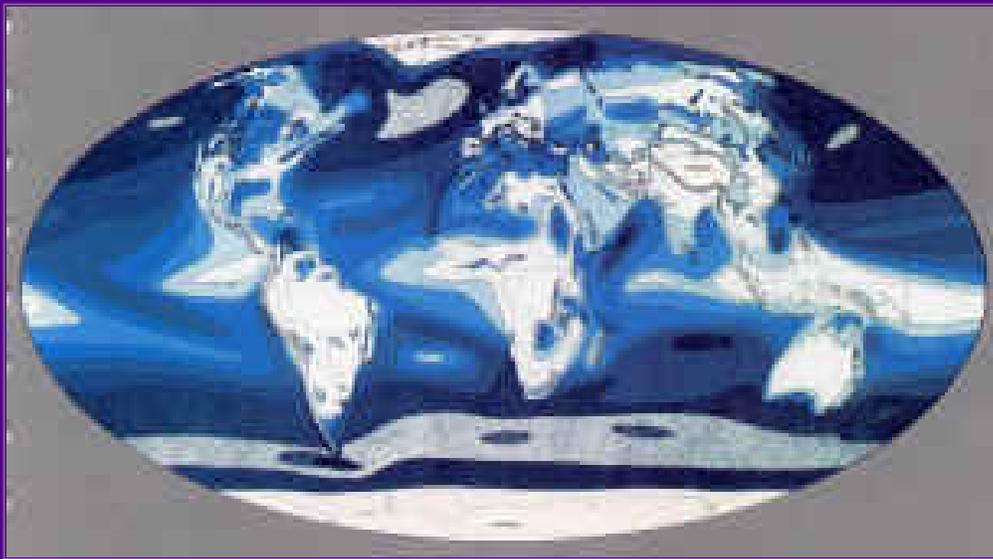

embrace the revolution

WIND FOR WELFARE

WORLD WIND MAP

WATER: (Obtaining clean water, purification, desalination)

we are all indebted to those people who in lack of clean water..

-ALL OTHER POSSIBLE CLEAN- ENERGY ALTERNATIVES:

(Including **COLD FUSION** -so*uk kayna*ma-) (will be available soon)

we are all also indebted to those people who in lack of clean energy..
